Your Smile
Your Choice

The best things in life aren't "one size fits all," and that goes for orthodontic braces too. That's why we're proud to offer advanced self-ligating braces from 3M - a brand that's trusted around the world. With 3M Braces, state-of-the-art technology helps move your teeth into position efficiently, so your treatment time could be faster than you thought possible. Read on to learn how The 3M Braces Advantage can make you smile - and make your smile better!

A Lifetime of
Beautiful Results

Let's face it, you're getting braces now for the look you will have later. But what if "later" came sooner? That can be the case with self-ligating braces. Since they don't require elastic bands (ligatures) to hold the archwire in the bracket, treatment times may be shorter. And appointments may be faster without ligatures to change. You could be in and out of the chair - and back out in the world, wearing your new, improved smile before you know it!

Ask About Advanced Self-Ligating
Solutions

We provide style and technology so you can have the smile you always dreamed of.

The 3M Braces Advantage

Innovative Self-Ligating Technology

- Enables faster treatment time
- Allows for fewer & faster appointments
- No more elastic bands
- Easy to keep clean

Full Speed Ahead

The list of reasons patients love self-ligating braces is long, and it can include things like a potentially faster treatment time… Quicker, more comfortable visits… Beautiful results, sooner than you thought… Even cleaner teeth, because self-ligating braces don't require the ligatures that stain easily and trap food to embarrass you later. We want you to feel great about your smile, and we don't think that has to wait until your treatment is finished.
