3M™ Scotchcal™

Non Reflective Film

Product Description

Scotchcal films are durable, dimensionally stable non reflective cast vinyl films which can be used to create text or symbols for traffic signs. Scotchcal 7725 and 100 Series films are recommended in permanent traffic signs

Application/Suitability

As part of the 3M™ Matched Component System™, Scotchcal films can be used with 3M Diamond Grade™ DG^3, 3M High Intensity Prismatic (HIP) and 3M Engineer Grade Permanent & Temporary Reflective Sheetings for non reflective areas of signs, such as grey or yellow backgrounds and backing boards.

Effective Performance Life

Scotchcal film, when applied and maintained following 3M recommendations will have the same effective performance life as the reflective sheeting on which it is applied.

Benefits

- Compatible with 3M Diamond Grade™ DG^3, 3M High Intensity Prismatic (HIP), and 3M Engineer Grade Reflective Sheetings
- Available in a large range of colours including traffic sign colours
- Can be screen printed to produce emblems
- Durable - provides the same effective performance life as the base sheeting to which it is applied
- Easy weeding

Product Construction/Specification

A non reflective cast vinyl marking film with pressure sensitive adhesive, compatible with all 3M reflective sheetings.

Colours

Scotchcal film is available in the following colours:
White, Black, Red, Yellow, Green, Traffic Blue, Traffic Grey.
A wide range of other non-traffic colours are also available.

Availability

For full product information please refer to the website or Customer Service Centre.

3M™ Scotchcal™

Non Reflective Film

Application Surface

3M Scotchcal film may be applied during traffic sign manufacture to 3M reflective sheetings. Applications to installed signs may be possible provided the surface is in good condition and can be prepared sufficiently well. When applying outdoors, care must be taken to ensure the temperature is sufficient, the surface is dry and application is done with enough pressure to get a good bond.
