

3M Range of Canisters

3M Drug Delivery Systems offers a range of canisters to meet your needs.

- Full range of cans available
- Simplified supply chain – vertical integration from canister and valve production to final product manufacturing allows all of the components of your inhalation product to work harmoniously
- Deep drawing expertise in metal components
- Fluorinated Ethylene Propylene (FEP) coating available to reduce drug deposition
- Novel approaches to enable a family of products including 3M Low Dosage Systems
