Treatment of complex cases in adult patients Classic orthodontics meets modern technology

Dr. José Chaqués Asensi, Dr. José Maria Llamas, Dr. Juan Carlos Pérez Varela
Members of the European Angle Society

As the trend of adults seeking orthodontic treatment is increasing, the classic challenges of adult treatment remain. This is especially true in complex cases, where multiple factors can influence the available treatment options and objectives. This course offers both theoretical considerations and practical applications that help achieve a quality result in complex treatment challenges. With the aid of new imaging and appliance technology, plus several decades of treatment experience among them, Dr. José Chaqués Asensi, Dr. José Maria Llamas and Dr. Juan Carlos Pérez Varela will offer diagnosis, treatment, and finishing insights that will help to make complex cases more manageable.

Complex Challenges in Adult Treatment

- *Defining goals and strategies*
- *Biological and periodontal considerations*
- *Dental and facial aesthetics: traditional and new perspectives*

Finishing Challenges of Adult Treatment

- *Detailing tooth position and occlusion*
- *Managing gingival margins and dental shape and size: keys and tricks*
- *New concepts in finishing: the occlusal, biological and aesthetic parameters*

Transverse Challenges during Adult Treatment

- *Treatment possibilities and limits*
- *Non-surgical treatment options*
- *Surgical treatment options*
