3 day course

# Copper Outside Plant Training

**Course Materials:**

You will be provided all the materials necessary to install 3M Copper Connectors and Closures. Time will also be allowed to review 3M Cabinets.

**Prerequisites:** None.

**Cost:** \$900.00

This workshop provides the technician with the theory and skills to perform common Outside Plant work operations in the field, including copper connector assembly and closure installation. This class is optimized for entry level and experienced field technicians as well as supervisors and managers.
