

Environmental, Health and Safety Policy

Corporate Life Cycle Management Policy

Applies To	This policy applies to products sold and/or distributed by 3M operations worldwide.
Introduction	<p>3M recognizes the importance of respecting our social and physical environment. To assure progress toward sustainable development, 3M is committed to continuously improving the environmental, health and safety performance of our products and processes in ways that meet customer needs and respect the ability of future generations to meet their own needs.</p> <p>3M's Life Cycle Management (LCM) Policy is intended to ensure that environmental, health, safety and regulatory (EHS&R) considerations will be integrated into the design, manufacture, use, and disposal of our products.</p>
Policy Statement	<p>New products must undergo LCM review prior to commercialization.</p> <p>Existing products, including products from acquisitions, must receive LCM reviews on a prioritized basis. Priority should be given to existing products based on risk characterization.</p> <p>LCM reviews include 3M EHS&R subject matter expert guidance and assessments, as needed.</p>
